June Newsletter 1981

Hello once again,

There's not too much news this time owing to the recording of the new L.P. near Oxford. A title has not been chosen yet and it may be released at the end of July (all going well).

The computer, working the models of the boys at the waxworks at Blackpool, has finally broken down.

Tony asked me to thank the members who kindly sent him birthday cards. He said he appreciated the thought.

Anyone wishing to give Peter and Tom birthday cards should send them to me before July 11th., enclosing 2 separate stamps (1 for each card). Please send Peter's and Tom's together as I shall be on vacation during their birthdays, so if they are sent after the above date the boys will not receive them.
